## Water Board Approves Dow Chemical Plant's Waste Disposal Plans

Dow Chemical Co. has received a green light from the State Water Control Board for its waste disposal plan at the projected fiber-manufacturing plant near Lee Hall, Warwick.

The decision was made during a two-day board hearing at Richmond in November but was not announced until yesterday. Details of the decision—the hourly full-filling—were still being prepared for publication.

Dow's application came in compliance with the State water control act and attracted considerable interest from civic planners and commercial fishing interests in a public hearing at Richmond in September.

Dow plans to erect a deft fiber plant on 400 acres on the James River. Full scale construction has yet to get underway.

Waste consisting of zinc dust, sludge, and other materials will be dumped into Woods Creek, which flows into the James, and a large discharge area on the Peninsula-Norfolk area—along with other business spokesmen—expressed concern over this plan at the hearing.

At the two-day board meeting, J. H. Pender, representing the board members, "There is no sufficient evidence at this time to show that damage will occur from the chances of damage are extremely small."

J. H. Pender, representing the board members, "There is no sufficient evidence at this time to show that damage will occur from the chances of damage are extremely small."

## Council Gets Air Pollution Control Plan

City Manager J. C. Higgins hands out Newport News City Council yesterday a tentative ordinance designed to control sources of air pollution. Higgins did not advocate immediate adoption of the law, saying he wanted to confer on it with City Attorney Harry L. Nachman. They are to report further on Dec. 31.

Introduction of the tentative legislation represents another step in the efforts of the city administration to deal with the problem of smoke and dust pollution.

This fall, a firm of chemical engineers made a survey of air pollution, and established causes of the pollution. Coal dust was listed as a major offender, and last week the Chesapeake and Ohio Railway announced it was voluntarily to control dust from its trains.

At council meeting yesterday, Higgins also heard complaints from citizens that coal dust could cause a possible health threat.

In a letter to Mayor Robert R. Smith yesterday, J. H. Pender, representing the board members, "There is no sufficient evidence at this time to show that damage will occur from the chances of damage are extremely small."

## Pohl To Head Area YMCA

John J. Pohl was selected president of the Young Men's Christian Association last night.

George A. Robinson was elected vice president in charge of youth services. Frank H. Bland was elected vice president for the adult program, and S. W. Coleman was elected the business vice president.

Other officers named last night are Burton P. Hill, recording secretary, and Karl L. Lester, treasurer. Pohl will serve as delegate to the state council. Fred W. Lintner will be first alternate and L. Arthur Bland, second alternate.

Lester will be the Y's representative on the community relations committee. Robinson will be the Y's representative on the YMCA committee. Pohl will be the Y's representative on the YMCA committee.

## Bloodmobile Visit Slated At NACA

The Tidewater Bloodmobile will make its fifth visit this year to the Langley Laboratory of the National Aeronautics and Space Administration on 9:30 a. m. to 3:30 p. m.

The bloodmobile will be at the Langley Laboratory in the vicinity of the main building. The bloodmobile will be at the Langley Laboratory in the vicinity of the main building.

## Virginia Ave. Widening Project Is Shelved For Additional Study; 30-Block Parking Ban Is Favored

Newport News City Council yesterday shelved for more study a proposed \$1 million Virginia Ave. widening project, but moved to ease traffic flow on the avenue by approving a 30-block, 24-hour a day parking prohibition.

Council indicated it thought that by banning parking on both sides of the avenue between 34th and 44th St., and opening the existing four lanes to traffic movement, the congestion problem could be solved. The parking prohibition will not become effective until the council approves and approves the written ordinance changes.

Action called after a number of North End residents spoke out against the widening project, and a petition bearing names of 200 citizens was handed council.

The citizens said they feared property values would decrease as a result of the project. They said, they believed other methods would improve traffic. The parking prohibition was suggested by some. The proposed Virginia Ave. project was brought before council several weeks ago by City Manager J. C. Higgins. It bore the blessing of the city Planning Commission and was included in the commission's master plan.

## NN Judge Ben Jacobs Resigns; Council Plans Session On Successor

The resignation of Municipal Court Judge Ben Jacobs, effective Jan. 1, was accepted "regretfully" yesterday by Newport News City Council. He said he wants to return to private law practice.

Mayor Robert R. Smith said he expects to call a special council session in September, 1958, for the purpose of considering a successor to Judge Jacobs. He said he expects to call a special council session in September, 1958, for the purpose of considering a successor to Judge Jacobs.

## Shoppers Get Free Parking

Newport News City Council yesterday gave shoppers and merchants a special Christmas present—free parking between 10 a. m. and 6 p. m. on all city-owned off-street lots beginning today and running through Christmas Eve. Left to right, Councilman William C. Brown, City Manager J. C. Higgins, Councilman Alfred M. Montfalcone, Mayor Robert R. Smith, vice Mayor Marvin M. Marchion Jr. and City Attorney Harry L. Nachman.

## Coast Guard To Probe Collision Of 2 Hampton Roads Ferries In Fog

Two State Highway Department ferries, the City of Newport News and the Ocean City, collided in a heavy fog early yesterday morning, resulting in minor injuries and damage to the ferries.

The collision occurred on the Chesapeake and Ohio Railway tracks near the intersection of the two ferries. The ferries were carrying passengers and cargo.

## AAA Group Symposium Concluded

The Third Atlantic Airline Symposium, held at the Hotel Hampton Roads, concluded yesterday with a luncheon and a presentation of awards.

The symposium was organized by the AAA Group and featured speakers from various airlines. The speakers discussed the latest developments in the airline industry.

## Housing Body Votes Second Cash Advance

Members of the Regional Housing Authority of Hampton and Virginia yesterday voted to advance \$100,000 to the city of Newport News for the purpose of purchasing land for a new housing project.

The advance was made on the condition that the city would provide matching funds for the project.

## Boasts Given Yale Fund By Shipyard Dept., PSA

More employees of Newport News Shipbuilding and Dry Dock Co. joined in the Yale Fund drive yesterday to help raise the fund's total to \$100,000.

The Yale Fund is a charitable organization that provides financial aid to students at Yale University.

## School Line Agreement Is Worked Out

Hampton councilmen and city officials during an on-site study yesterday apparently worked out an agreement that will save considerable money in running a sewer line through the area.

The agreement was reached after several meetings between the councilmen and city officials. The agreement will save the city a significant amount of money.

## WOULD GET AID

The proposed, as introduced by councilmen, said that present conditions in the area are such that the city should provide financial aid to the residents of the area.

The aid would be in the form of cash payments to the residents. The aid would be in the form of cash payments to the residents.
